

## Press release Calendar Week 40/I

### Convenient and efficient – the Toyota Prius

#### With a Rameder towbar, nothing is impossible for this hybrid vehicle

As the first hybrid-engine production car, the Toyota Prius made history. **Rameder**, Europe's leading provider of automotive transport solutions, now makes this eco car even more efficient. With a towbar from the German company's online shop at [www.rameder.eu](http://www.rameder.eu), the Japanese car becomes multifunctional, with more space for bulky loads or luggage, your holiday trip with a caravan or a bicycle carrier. Now, nothing is impossible for this hybrid car!

At [www.rameder.eu](http://www.rameder.eu), Prius drivers will find a complete set with a screwed on ball head including a 7-pin electrical set from only €264. At a vertical load of 75kg, the Prius can now tow up to 725kg.

**Rameder's** online shop does, of course, also provide a complete set with a detachable towball, with which the Prius, at the same vertical load, can tow up to 800kg. Prices start at €308.
